

A little note from your cleaning team...

Steps We Are Taking To Minimise The Spread Of COVID-19

- Cleaning staff wear PPE at all times while on site, gloves, mask, apron and shoe covers.
- Our viricidal disinfectant is the government recommended standard, certified EN14476.
- We use disposable or washable cleaning materials.
- We have carried out a COVID-19 risk assessment which is shared with our staff.
- We do everything practical to manage transmission to keep 2m apart.
- We work in well ventilated areas where possible,
- All staff sign a daily fit-for-work check before they start work.
- Cleaning staff sign a cleaning task sheet at the end of every change-over which is kept on site.
- We act with due diligence and the area is sanitised to a non-healthcare standard.

Enjoy your stay x

What can you do to help?

- Continue to wash your hands regularly and adhere to social distancing while out and about.
- At the end of your stay, remove your bedding and place to one side or in the bag provided.
- If you use any kitchen goods please place them in the dishwasher or on the side for us to wash.
- Cleaning products are provided if you should need them, under the sink.
- Open windows before you leave.
- Hand sanitiser is provided for your use at the entrance.
- Inform your hosts immediately if you know or suspect anyone staying or visiting the property, past or present, has symptoms of COVID-19.
